PROFESSIONAL SUMMARY

Web Developer with hands on experience building responsive websites and small web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Familiar with REST API integration, Git, GitHub, and application deployment using Netlify and Vercel. Possesses additional technical skills in Linux environments, networking fundamentals, system troubleshooting, and IT support. Strong problem solving abilities with a commitment to continuous learning and delivering reliable technical solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Web Design

Backend: Working knowledge of Node.js, Express.js, REST API Integration

Database: MySQL, MongoDB

Development Tools: Git, GitHub, Visual Studio Code, Postman, npm, Netlify, Vercel

Operating Systems: Windows, Ubuntu Linux, Kali Linux, Zorin OS

IT Support & Networking: Linux Fundamentals, TCP/IP Configuration, DNS Troubleshooting, Internet Connectivity Troubleshooting, Basic Router Configuration, Operating System Installation, Software & Driver Installation, PC Setup & Configuration, Hardware Troubleshooting

Core Strengths: Debugging & Problem Solving, API Integration, Technical Documentation, Technical Research, Cross Platform Environment, Self Learning

PROJECTS

AI-Powered WhatsApp Automation Bot

Technologies: Node.js, JavaScript, REST APIs

- Developed a WhatsApp automation bot using Node.js and JavaScript to automate group management tasks.
- Integrated external APIs to process automated commands and improve bot functionality.
- Implemented group administration features including promotions, demotions, moderation controls, and automated responses.

- Debugged asynchronous operations and resolved runtime issues to improve application stability and performance.

Personal Portfolio Website | [Portfolio](#)

Technologies: HTML5, CSS3, JavaScript, Netlify

- Designed and developed a fully responsive personal portfolio website to showcase projects and technical skills.
- Created a modern and user friendly interface with responsive layouts and smooth animations.
- Optimized the website for different screen sizes to ensure a consistent user experience across devices.
- Deployed the application using Netlify for public access.

React Product Landing Page

Technologies: React.js, React Router, JavaScript, CSS3

- Built a responsive product landing page using React.js and reusable components.
- Implemented component based architecture to improve code organization and maintainability.
- Integrated client side routing using React Router for seamless navigation.
- Developed responsive layouts following modern frontend development practices.

Furniture E-Commerce Website

Technologies: HTML5, CSS3, JavaScript

- Developed a responsive furniture e commerce website interface with a clean and modern design.
- Created product listing sections, responsive navigation, and interactive user interface components.
- Optimized page layouts for desktop, tablet, and mobile devices.
- Applied JavaScript to enhance user interaction and improve the overall browsing experience.
